

# European Educational Leadership Academy

Apprendre de tous, savoir ensemble

# Spring Session

## HOW TO BE AN EDUCATIONAL LEADER

 APRIL-MAY 2022

We will first explore leadership with a European and international perspective. We will secondly focus on effective communication and finally work on positive management in order to sharpen your leadership skills in accordance to your context.

## WHAT WILL BE THE DIFFERENT THEMES?

Be inspiring

Make achievable goals and recognize achievements

Be a resource of knowledge and guidance

Build on people strength

Support and respect your team !

Get involved and add value

Act decisively!

# Summer Session

## "HOW TO GENERATE A NEW LEARNING SPIRIT"

 **AUGUST 2022**

We imagined this second chapter as a journey through the most recent learning methodologies and strategies. For this aim, we will focus on how the participants to the training can create an authentic, engaging, and inclusive learning environment, while at the same time, make a recognition of multiple needs.

## **WHAT WILL BE THE DIFFERENT THEMES?**

-  Find the right balance between emotional and cognitive learning
-  build an intrinsically motivated process of teaching and learning indifferent education community
-  establish trusting and transparent environments, where students (and educators) could learn from one another and participate in experiential learning.

# Fall Session

## "HOW TO WELCOME INNOVATION"

 **OCTOBER 2022**

In our conception, innovation could be triggered through designing and implementing flexible, personalized and differentiated learning path ways to be disseminated also in public education systems; this ,in order to develop a more effective education community.

## **WHAT WILL BE THE DIFFERENT THEMES?**

-  Explore innovation through research on innovative practices in teaching and learning collected across the EU and beyond
-  link up with networks, projects and platforms and invite our partners to share their success in innovation with peers
-  Create a multi-stake holders and multilingual community of education and help them to stay engaged and connected

## **WHY NOT MEET AT ALL THREE PROGRAMMES?**

# Some of our morning debates

-  Soft skills and emotional intelligence to manage staff and teachers
-  Stress and conflict : the way to resilience and satisfaction
-  Bring enthusiasm in education community!
-  Promoting creativity ,critical thinking in schools
-  Effective communication and effective education community management
-  Improve staff engagement, teacher's motivation and student's attainment

**COME SHARE YOUR EXPERIENCES**

# Let's stay in touch and **build together a community**

Throughout the year **a learning space** will be part of the annual training program. Principals will be the main actors of our **co-participating scenario**.

## SHARING PROJECTS, PROPOSALS, EXPÉRIENCES...

presenting schools, staff, teachers' community and ideals will represent the core of the community as we figured it...

**FOR YOU !**
