

Program in English

Teaching French to primary school pupils

Do you recognise the importance of instilling a taste for language from an early age ?
Are you convinced that the earlier a child is exposed to a new language, the more time he or she will have to learn it, and that the foundations acquired during this period will remain more firmly anchored ?
Do you want to know how to build an effective teaching programme for young children?

This course aims to introduce you to teaching techniques for young learners.

On the program :

To initiate or deepen knowledge of **language teaching** for young learners.

To analyse **existing resources** and devise **educational ways of using them** to promote the acquisition of **language skills** through motivating and appropriate activities.

To explore and develop **teaching sequences and ideas** that will engage young learners in FLE.

Opening up to the world in French from an early age

The Côte d'Azur, a class room in the open air

The French Riviera like you have never seen it !

Nice, Cannes, Monaco, come and discover these mythical destinations, learn in exceptional places that have inspired the greatest painters

Mythical spots that we will take you to discover on visits and trips interspersed with cultural and culinary experiences, time to share ideas and relax.

Students from Nice will act as your guides and share with you the history and their connections with the places.

An unique experience on the French Riviera
Nice, meeting place of the world
What about you?
When will you be coming?
